

The Elder Scrolls® IV

OBLIVION™

Bethesda®

PRECAUTIONS

- This disc contains software for the PlayStation®3 system. Never use this disc on any other system, as it could damage it.
- This disc conforms to PlayStation®3 specifications for the PAL market only. It cannot be used on other specification versions of PlayStation®3.
- Read the PlayStation®3 system Instruction Manual carefully to ensure correct usage.
- When inserting this disc in the PlayStation®3 system always place it with the required playback side facing down.
- When handling the disc, do not touch the surface. Hold it by the edge.
- Keep the disc clean and free of scratches. Should the surface become dirty, wipe it gently with a soft dry cloth.
- Do not leave the disc near heat sources or in direct sunlight or excessive moisture.
- Do not use an irregularly shaped disc, a cracked or warped disc, or one that has been repaired with adhesives, as it could lead to malfunction.

HEALTH WARNING

Always play in a well lit environment. Take regular breaks, 15 minutes every hour. Discontinue playing if you experience dizziness, nausea, fatigue or have a headache. Some individuals are sensitive to flashing or flickering lights or geometric shapes and patterns, may have an undetected epileptic condition and may experience epileptic seizures when watching television or playing videogames. Consult your doctor before playing videogames if you have an epileptic condition and immediately should you experience any of the following symptoms whilst playing: altered vision, muscle twitching, other involuntary movement, loss of awareness, confusion and/or convulsions.

3D HEALTH WARNING

Some people may experience discomfort (such as eye strain, eye fatigue or nausea) while watching 3D video images or playing stereoscopic 3D games on 3D televisions. If you experience such discomfort you should immediately discontinue use of your television until the discomfort subsides.

Generally we recommend that you avoid prolonged use of your PlayStation®3 system and take 15 minute breaks during each hour of play. However, when playing stereoscopic 3D games or watching 3D video, the length and frequency of necessary breaks may vary from person to person – please take breaks that are long enough to allow any feelings of discomfort to subside. If symptoms persist, consult your doctor.

The vision of young children (especially those under six years old) is still under development. We recommend that you consult with your child's doctor or optometrist before allowing young children to watch 3D video images or play stereoscopic 3D games. Adults should supervise young children to ensure they follow the recommendations listed above.

PIRACY

The unauthorised reproduction of all or any game part of this product and the unauthorised use of registered trademarks are likely to constitute a criminal offence. Piracy harms consumers as well as legitimate developers, publishers and retailers. If you suspect this game product is an unauthorised copy, or have any other information about pirate product, please call your local Customer Service number given at the back of this manual.

SYSTEM SOFTWARE UPDATES

For details about how to perform System Software updates for the PlayStation®3 system, visit eu.playstation.com or refer to the PS3™ system's instruction manual.

See back page of this manual for Customer Service Numbers.

PARENTAL CONTROL

This product has a preset Parental Control Level based on its content. You can set the Parental Control Level on the PlayStation®3 system to restrict the playback of a product with a Parental Control Level that is higher than the level set on the PS3™ system. For more information, please refer to the PS3™ system instruction manual.

This product is classified according to the PEGI rating system. The PEGI rating marks and content descriptors are displayed on the product package (except where, by law, another rating system applies). The relationship between the PEGI rating system and the Parental Control Level is as follows:

PARENTAL CONTROL LEVEL	9	7	5	3	2
PEGI RATING AGE GROUP	18	16	12	7	3

In rare cases, the Parental Control Level of this product may be higher than the age rating which applies in your country, because of differences in the age rating systems in the various countries in which this product is sold. You may need to reset the Parental Control Level on your PS3™ system to enable play.

GETTING STARTED

SETTING UP

Set up the PlayStation®3 system according to the instructions in its instruction manual.
At start-up, the power indicator light will glow red to indicate that the PlayStation®3 system is in Standby Mode. Press the power button and the power indicator light will turn green.

Insert The Elder Scrolls IV: Oblivion 5th Anniversary Edition disc into the disc slot with the label side facing upwards. Select the  icon from the XMB™ Menu and press the  button to continue. Make sure there is enough free space on the Hard Disk Drive (HDD) before commencing play. Do not insert or remove peripherals once the power is turned on.
Please refer to the PlayStation®3 system's instruction manual for further details about setting up and recharging a Wireless Controller.

PLEASE NOTE: the information in this manual was correct at the time of going to print, but some minor changes may have been made late in the product's development. All screenshots for this manual have been taken from the English version of this product.

NOTICES: Video output in HD requires cables and an HD- compatible display, both sold separately.

Quitting a game: During gameplay, press and hold down the PS button on the wireless controller for at least 2 seconds. Then select "Quit Game" from the screen that is displayed.

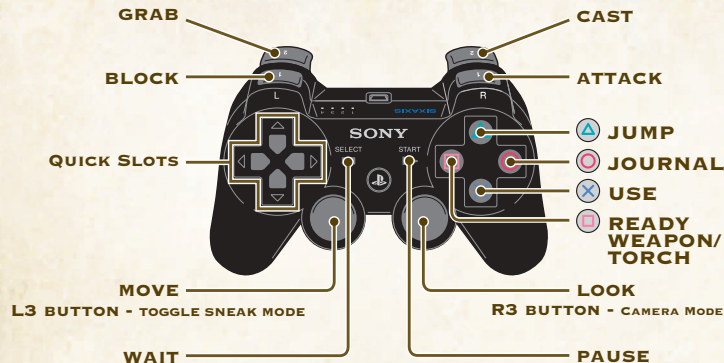

HINT: To remove a disc, touch the eject button after quitting the game.

Trophies: Earn, compare and share trophies that you earn by making specific in-game accomplishments. Trophies access requires a PlayStation®Network account.

Saved data for PS3™ format software

Saved data for PS3™ format software is saved on the system's hard disk. The data is displayed under "Saved Game Utility" in the Game menu.

GAMEPLAY CONTROLS

* THE L3 AND R3 BUTTONS FUNCTION WHEN THE STICKS ARE PRESSED.

XMB™ Menu

STARTING SHIVERING ISLES AND KNIGHTS OF THE NINE

Shivering Isles adds content to your new or existing Oblivion game which you can access after one day of in-game time (simply use the Rest option to wait 24 hours). After 1 day of in-game time, you will get a quest message providing you information about the Shivering Isles content ("A Door in Niben Bay"). If you are starting a new game, you must exit character generation first before allowing a day to expire. Once you get the message, your quest journal will add a quest target pointing to where you can experience Shivering Isles.

For Knights of the Nine, you will need to go visit the chapel in Anvil and then talk to the prophet outside in order to get your first quest.

THE GAME SCREEN

HEALTH

The amount of damage you can take. Sleeping, waiting, potions or spells can restore your Health.

MAGICKA

Casting spells uses Magicka. Magicka regenerates based on your Willpower. Sleeping, waiting, potions or spells can also restore your Magicka.

FATIGUE

Fatigue is how tired you are. Low Fatigue hurts your effectiveness, especially when doing melee attacks. Fatigue returns faster if you walk instead of run.

WEAPON

Your active weapon.

ARROWS

Number of arrows equipped.

MAGIC

Your active spell.

SPELL EFFECT

Any temporary spell(s) affecting you.

TARGET HEALTH

Shows the health of your target.

TARGET NAME

Name of highlighted object or character

CROSSHAIR

Helps you target objects and characters.

COMPASS

Shows direction, locations, and markers.

LEVEL UP

Indicates you can sleep in a bed to advance to the next level.

COMPASS AND ACTIVATION ICONS

Icons on the compass indicate nearby places of interest (like dungeons, cities, or inns), and Quest Target markers indicate the direction of your active quest objective.

TARGET MARKERS

A red arrow means you must travel through a door or portal to reach your objective.

A green arrow means you are already in the same general location as your objective.

A blue arrow is one you can place yourself on your local or world map.

JOURNAL AND STATS MENU

There are four main sections of your Journal: Stats, Inventory, Magic, and Maps.

✕ button - Enter/exit Journal mode.

Left stick or ↑, ↓, ←, → buttons - Scroll up/down through lists; move left and right through tabs in each section.

L1 button and R1 button - Cycle right/left through the four main sections.

Right stick - Rotate/zoom your character to examine him/her.

STATS MENU

The Stats Menu has five tabs, from left to right:

CHARACTER - Basic info about your character.

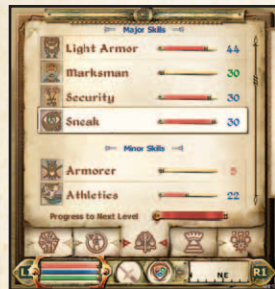

ATTRIBUTES - Information on your eight Attributes.

SKILLS - Information on your 21 skills.

FACTIONS - Shows the factions you belong to and your current rank in each.

ACCOMPLISHMENTS - Lists your many accomplishments.

SKILLS TAB

You have seven Major Skills and 14 Miscellaneous Skills. Under each skill is a bar indicating (in red) how close you are to increasing that skill. The more you use that skill, the faster it will increase.

MAJOR SKILLS

The skills that define your character. You must increase any combination of your major skills by a total of 10 points to advance your character to the next level.

MINOR SKILLS

Increasing these skills makes you better at them, but does not help you level up.

SKILL PROGRESS BAR

Tracks how close you are to raising that skill by another point.

POSITIVE SKILL MODIFIER

Values appearing in green are currently being modified by positive spells, abilities, powers, or other effects.

NEGATIVE SKILL MODIFIER

Values appearing in red are currently being modified by negative spell effects, diseases, or other effects.

LEVEL PROGRESS BAR

How close you are to raising your character's level.

INVENTORY MENU

The Inventory Menu has five tabs, from left to right:

ALL ITEMS - This list includes everything in your inventory.

WEAPONS - This displays only the weapon items in your inventory.

ARMOR - This displays only armor and clothing in your inventory.

ALCHEMY - This lists all potions, alchemy apparatus, food, and alchemical ingredients.

MISCELLANEOUS - This list displays Miscellaneous items, including Books, Notes, Gems, Keys, Torches, Lockpicks, Magic Stones, and other items.

⊗ button - Equip or Use the selected item

Ⓢ button - Drop the selected item.

HOTKEYS

In the Inventory Menu, define Hotkeys by pressing the Ⓢ button and holding one of the four positions on the ↑, ↓, ←, → buttons while simultaneously selecting the weapon, armor, spell, or item you want in that slot. Note, you can still change menus with the Hotkeys open, and the item will be assigned when you release the ↑, ↓, ←, → buttons.

While playing, use the ↑, ↓, ←, → buttons to select any of your eight Hotkeyed items.

RIGHT-HAND AND LEFT-HAND SLOTS

Weapons equip in your right hand, shields and torches in your left. Shields and torches each have their own slot, but will not be used with two-handed weapons like claymores, warhammers, bows, and magical staves, even though the slot is equipped. An equipped torch is always used when your weapon is sheathed; so pressing the Ⓢ button is a good way to switch between your weapons and torch.

198 / 200 Your current Encumbrance compared to your Maximum Encumbrance. If you are carrying too much you will be Over Encumbered and you cannot move until you drop some items to reduce your encumbrance.

16 The combined effects of your physical armor and active magical armor effects. The higher the number, the better.

31 How much gold you have.

INVENTORY ITEMS

Items in inventory are represented by an icon to the left of the name of the item. A number indicates a stack of more than one of the item. In addition, one or more of the following icons may appear on the item icon:

Magical Item

Stolen Item

Poisoned Weapon

Broken Item

MAGIC MENU

Successfully casting spells will raise your skill in that spell's school. You can buy new spells from various people in the world who sell them. The Magic Menu has five tabs, from left to right: All Magic, Target Magic, Touch Magic, Self Magic, and Active Effects.

SPELL ICON

The magic effect of the spell.

SPELL NAME

Name of selected spell.

MAGICKA COST

Indicated by the Lightning Bolt icon , this column provides the Magicka cost of casting the spell. This is dependent on your skill in the spell's school.

Navigating to the listed spell displays more about the spell.

SPELL EFFECTIVENESS

Wearing armor lowers the effectiveness of your spells. To increase your spell effectiveness, either wear less armor, or raise the appropriate armor skill (light or heavy). A lower spell effectiveness will reduce the magnitude and duration of your spells.

ACTIVE EFFECTS TAB

All spells, abilities, powers, and other magical effects currently affecting your character. It includes always-active birthsign abilities, powers, and diseases.

The combined magnitude of all magic using this effect on you.

RACIAL ABILITIES

Inherent abilities that never need to be cast and are always active.

POWERS

Many races and birthsigns also provide special powers that can be used once a day but are readied and cast just like spells. Powers are not assigned to a school of magic, so using them will not improve your magic skills.

LESSER POWERS

These are similar to Powers, but less powerful and can be cast more than once per day.

DISEASES

While not actually magic, the effects of disease are similar to magical curses. You can get cured at chapels in towns and Wayshrines in the wilderness, or by using a Cure Disease spell or potion.

MAPS AND QUESTS

The Maps Section has five tabs, from left to right: Local Map, World Map, Active Quest, Current Quests, and Completed Quests.

LOCAL MAP

This shows your immediate surroundings. Rollover icons display information about doors and their destinations, and quest targets indicate your quest objectives.

X button – Fast Travel (when highlighting a discovered location)

□ button – Place your own marker on the map.

Right stick – Move the cursor, scroll the map

R3 button – Pan the map.

WORLD MAP

This shows a map of Cyrodiil.

Your Position: The gold arrow shows your position on the map

Quest Target: The Quest Target is a red or green arrow on the World Map. The Quest Target is always determined by your Active Quest. To make a quest active, select it from the list in your Current Quest tab.

Your Target: The Blue Arrow. You can place, move, or remove this by pressing the **□ button**.

Discovered Location: Dark markers can be selected for fast travel. You cannot fast travel from interiors or while in combat. When you fast travel, time will move ahead according to how long it would have taken you to get there normally. If you have a horse, it will fast travel with you. When traveling to cities, your horse will be placed in the nearest stable.

Known Location: Bright markers are known to you, but cannot be fast traveled to until you discover them on your own.

ACTIVE QUEST

This displays entries for your active quest. Select a quest in the Current Quests tab to make it your Active Quest. The Quest Targets displayed on maps and your Compass are the Quest Targets for your Active Quest. Press the **X button** to view the position of your Quest Target on your World Map.

CURRENT QUESTS

This displays entries for all your quests that you have not yet completed. Select a Quest to make it your Active Quest.

COMPLETED QUESTS

Lists all of the quests you have completed. Select an entry to display all the entries for that quest.

QUESTS AND QUEST TARGETS

When a quest is Active, Quest Target arrows are displayed on your Compass and on your Local and World maps (see previous page). You can use these markers to guide you to the next step in completing your Active Quest. On the World Map, Quest Targets indicate the general location of your next step. On the Local Map, the Quest Target will indicate the location of the next step, or the door you must go through to reach that location.

DIALOGUE

When the Speaking icon is displayed,  activate the person to initiate dialogue. The Dialogue Menu has several important areas.

CHARACTER NAME

The name of the person to whom you are speaking.

TOPICS

This is a list of everything you can ask this person about. You may need to scroll down to reveal additional topics. Asking about certain topics may add new topics to the list. A topic displayed in gold has information you do not have yet. If it is grey, you already know the information the character will say. If you ask a topic and it stays gold, that means the character does not like you enough to tell you everything they know.

DIALOGUE OPTIONS

Various dialogue options may be displayed beneath the list of topics. Selecting these icons will bring up other dialogue menus.

Persuasion: Allows you to attempt to raise the character's Disposition through Persuasion gameplay.

Barter: Buy and sell goods.

Repair: This character can repair normal and magical weapons and armor of all kinds for a price.

Spells for Sale: Displays the spells he has available, with the cost in Magicka to cast and the cost in gold to purchase.

Recharge: Those offering this service are able to recharge your magical items for a fee.

Training: There are a limited number of characters capable of teaching skills, and even fewer can teach the skills at higher levels. You can only raise any combination of your skills by a total of five points until you level up again.

Exit Dialogue

BARTERING

Choosing Barter will display both your inventory and the person's inventory. In the Barter menu, use the **L1** button to show a list of items you can sell to the merchant. Use the **R1** button to show a list of items the merchant has for sale.

Select any item(s) you want to obtain from the person and they will be placed in your inventory. You can also attempt to sell him any of your items by selecting them from your inventory. The person you are bartering with will choose to accept or reject any offer you've modified based on your Mercantile skill and how much you are haggling. Note that if the offer is rejected, their Disposition will drop by a point.

HAGGLING

The prices a merchant offers are determined by your Mercantile skill, the merchant's Mercantile skill, and the merchant's Disposition towards you. A merchant may actually be willing to sell at a lower price, or may be willing to pay more for your goods, but you can only find out how much more by haggling.

Press the **A** button to haggle. The Haggle display indicates the merchant's Mercantile skill mastery level and Disposition, and lets you adjust how easy or hard you want to bargain. The greater your Mercantile skill, the lower the merchant's Mercantile skill, and the more the merchant likes you, the farther you can push your haggling to the 'Hard' setting and still have your offer accepted. Once you find a point on the slider where the merchant will accept an offer, however, he consistently accepts offers at that point (unless his Disposition towards you drops). And as your Mercantile skill increases, in time you'll be able to push your haggling even harder.

PERSUASION

DISPOSITION

A person's Disposition to you is a number on a scale from 0 to 100 that reflects how he feels about you. The higher the number, the more he likes you.

A person's Disposition is based on a variety of factors, including race, personality, your reputation, faction affiliations, and how the person may feel about your previous actions (e.g., you helped a member of this individual's guild, or stole from or killed a friend of his).

Bribe: The cost of a bribe attempt. Bribes allow you to pay to increase a person's Disposition. Not everyone will accept bribes.

Rotate: Only appears if you have the Speechcraft Apprentice Mastery Level. This permits you a free rotation of the wedges once in each Persuasion round.

Start: Begins a Persuasion round.

Done: Exits the Persuasion Menu. Not available until you have made all four action choices.

PERSUASION RULES

In each round of Persuasion, you must Admire, Boast, Joke, and Coerce and you can only choose each option once per round, but in any order you desire. Each of these actions raises or lowers the person's disposition. You may play many rounds of Persuasion before raising the person's Disposition to the desired level.

To begin a round of Persuasion, press the **X** button. Each of the four quadrants will fill with wedges of different sizes. The size of the wedge reflects the scale of the potential effect of your choosing an action. Choosing a large wedge has a great effect; choosing a small wedge has a small effect.

As you highlight in turn the Admire, Boast, Joke, and Coerce quadrants, the person's face shows his reaction to each of the actions. For each of the four actions, he will Love one, Like one, Dislike one, and Hate one. Don't take too long, because the person's disposition is steadily falling. The person's disposition goes up when you select a Loved or Liked action and goes down when you select a Disliked or Hated action.

The potential gain or loss for each action is based on your Speechcraft and how full the wedge is. Try to select fuller wedges when they are aligned with actions the person likes. Try to select less full wedges when they are aligned with actions he doesn't like.

THE ARTS OF COMBAT

To defend themselves from monsters and marauders, travelers and adventurers learn to use weapons and armor.

WEAPONS

There are two kinds of weapons: melee weapons like swords and maces, and bows. Better weapons are made from precious materials, and may bear useful enchantments. The damage you do depends on the weapon itself, your skill, and the condition of the weapon (i.e., whether the weapon is in good repair).

MELEE ATTACKS

There are two types of attacks: Basic Attacks and Power Attacks. Basic Attacks are quick, but do less damage. Power Attacks are slow, but do more damage. To make a Basic Attack, pull and release the **R1** button. To make a Power Attack, pull and hold the **R1** button. Move the **Left stick** to perform different Power Attacks.

At lower Mastery Levels, Blade, Blunt, and Hand to Hand skills let you make a basic Power Attack in any direction. At higher Mastery Levels, Blade, Blunt, and Hand to Hand skills let you make Mastery Power Attacks with left, right, and rear character movements; these Mastery Power Attacks have special bonuses and effects.

RANGED ATTACKS

To attack with a bow, pull and hold the **R1** button to draw the bowstring to full extension, then release the **R1** button to fire the arrow. It takes time to draw the bowstring back for a full-power attack. A Journeyman of Marksman can zoom-in with the bow by holding Block (**L1** button) with an arrow nocked.

ONE-HANDED AND TWO-HANDED WEAPONS

Certain weapons, like daggers, short swords, maces, and war axes, are one-handed weapons, and can be used with a shield. Other weapons, like battleaxes, claymores, and warhammers, require two hands, and cannot be used with a shield. (Highlight a weapon in the Inventory Menu to see whether it is one-handed or two-handed.)

BLOCKING

To block, pull and hold the **L1** button. A shield or weapon block reduces the damage you take. Shields are much more effective at Blocking than weapons.

An effective combat strategy is to block an enemy's blow, then quickly follow up with your own attack to catch the enemy before he can ready his block. Establishing this block-and-counter rhythm in melee combat can greatly improve your combat effectiveness.

ARMOR

Each piece of armor you wear adds to your overall protection, or "armor rating." The higher the armor rating, **[16]** the better you are protected. The amount of protection you receive from a piece of armor depends on the armor itself, your skill with that type of armor, and whether the armor is in good repair.

Your Armor Rating is the percentage of damage done to you that your armor will absorb. As armor takes damage, its condition decreases. This also lowers how much protection the armor offers. Your armor rating is the total of all the armor you are wearing. Certain pieces contribute more towards your rating than others.

REPAIRING WEAPONS AND ARMOR

Weapons and armor sustain damage as you use them. The lower the condition of the weapon, the less damage it does. When its condition goes to zero, the weapon or armor becomes unusable. Use repair hammers to repair your armor and weapons. The success of your repair depends on your Armorer skill.

***Note:** Only a Journeyman Armorer or higher can repair magic items. You can also find people who can repair these items as a service. It will cost you, but they always repair the item back to full condition (even magic items).*

OTHER COMBAT SITUATIONS

GETTING KNOCKED DOWN

You can be knocked down during combat as the result of a powerful blow from an opponent. Hitting someone who is knocked down does more damage.

DODGING

At Journeyman Mastery, a Journeyman gains the Dodge ability, and can hold block and jump in a direction to do a quick avoidance roll.

YIELDING

If you get into a fight with a friend, you can yield to him to stop the combat by holding Block and activating that character. If he likes you enough, he will stop the fight.

CRIME AND PUNISHMENT

CRIMES, BOUNTIES, AND JAIL

In general, the following actions are considered crimes and are reported as such if you are detected:

- Stealing items, horses, etc.
- Grabbing or picking up an owned item
- Trespassing
- Starting a fight (defending yourself is not a crime)
- Killing a character (defending yourself is not a crime)

When a crime is reported, a Bounty of a value proportional to the seriousness of your crime is placed on your head. If you encounter guards while you have a Bounty on your head, they may approach and arrest you. If you run, they'll chase you. If you manage to escape, you'll find that the legal system is very efficient, and anywhere you encounter guards, they will attempt to arrest you. Once they catch you, you'll have several options.

- If you have the money, you can pay off the Bounty on your head and avoid jail. If you have stolen items in your Inventory, they'll be taken from you, including things you may have stolen without getting caught. Guards can always spot stolen merchandise.
- You can resist arrest, which is not really a high percentage move, since guards are very tough, attempt to kill those who resist arrest, and even if you do escape, you're still held accountable for the Bounty on your head.
- You can agree to go to jail rather than pay the fine. When you are released, some skills will decrease due to your inactivity in prison. The number of skills, and the amount they deteriorate, depends on the length of your sentence. Any stolen items in your Inventory are taken from you. Occasionally certain skills increase, rather than decrease, during your confinement, thanks to the generous sharing of trade secrets among the criminal community. It's also said that those interested in joining the secretive Thieves Guild can make helpful contacts in the collegial atmosphere of criminal offenders.

It is possible, but very difficult, to escape from jail. It is difficult to see the benefit of such an action, since you still have a Bounty on your head. But some members of the criminal community feel it is their obligation to escape from jail as a matter of principle.

It is also possible to recover stolen items that have been confiscated from you upon your incarceration. Such items are held in Stolen Goods containers near the jail cells. Stealing things out from under the noses of jail guards is very difficult, but, again, some criminals consider it a matter of principle to recover their ill-gotten goods.

HORSES, HOUSES, BOOKS, CONTAINERS

HORSES

To ride a horse, activate it. Use the **Left stick** to steer the horse, and the **Right stick** to look around. Activating a horse that does not belong to you is horse stealing, a serious crime. To purchase your own horse, visit stables outside the towns. When you fast-travel to a city, your horse is left for you at the local stable, just outside the city gates.

HOUSES FOR SALE

Houses of varying qualities are for sale in each of the towns, and, once you own a house, you can also purchase furnishings for that house from local merchants. To learn more about houses for sale, visit the counts, countesses, or their agents in the town's castle.

BOOKS AND OTHER DOCUMENTS

When you pick up a book or document to read, you can put it back where you got it (select 'Exit') or put it in your inventory (select 'Take'). If a book is already in your inventory, navigate to it in your Inventory Menu and press the **⊗ button** to open it. Use the **L1 button** and the **R1 button** to flip back and forth through a book's pages. Use **Left stick** or the **↑, ↓, ←, → buttons** to scroll up and down through a scroll's text.

Special Skill Books improve your skills. Just opening these books produces a message indicating which skill has improved. A book only improves a skill once; repeat readings have no effect.

CONTAINERS

Containers include things like chests, sacks, crates, barrels, dead bodies, and more. To see what's inside a container, direct your Crosshair over the object so the Purse icon appears, then press the **⊗ button**. If the Purse icon is white, you're free to take and use the contents of the container. If the Purse icon is red, someone else owns the container, and taking anything from the container is stealing, and a crime if you are detected. If the Purse icon is red, and the container is locked, any attempt to pick the lock is stealing, and a crime if you are detected.

Take things one at a time from a container by pressing the **⊗ button**. Scroll up and down in lists with the **Left stick** or the **↑, ↓, ←, → buttons**; shift left and right through inventory tabs by moving the **Left stick** or the **↑, ↓, ←, → buttons** left and right. Press the **L1 button** to display your own inventory; press the **R1 button** to display the container's inventory. Press the **Ⓜ button** to take all things in a container, and press the **Ⓞ button** to exit a container. To place something in a container, press the **L1 button** to display your own inventory, and select an item to place it in the container.

Warning! Don't leave things in containers you don't own! They may not be there when you come back for them!

INCREASING YOUR SKILLS AND LEVELING UP

INCREASING SKILLS

There are three ways to increase a skill:

1. Use it over and over. The lower the skill score, the easier it is to increase it by using it. It takes much longer to raise a high skill by using it. Review your progress toward increasing a skill in the Skills Display of the Stats Menu.
2. Buy training from another character. You can only train 5 skills points per level.
3. Learn more about the skill from special books.

RAISING YOUR LEVEL

Increase the Major Skills associated with your class to raise your level. In order to raise your level, you must improve any combination of your Major Skills by a total of 10 points. Review your progress toward increasing your level in the Skills Display of the Stats Menu.

You will receive a message and an Icon will appear on the screen when you have raised your skills enough to raise a level. You must use a bed to sleep and meditate on what you've learned in order to increase your level.

When you raise a level, you are given an opportunity to increase three of your eight Attributes. Certain attributes may receive a bonus modifier, which is determined by which skills you have increased since you last raised level. For example, if you improved several skills that have Personality as a governing attribute, then you will see an appropriate bonus modifier for Personality. Whether a skill is Major or Minor does not affect the modifier. In addition, when you raise a level, your Health is increased by one-tenth of your Endurance.

OPTIONS AND PREFERENCES

You can access the Options Menu from the Main Menu when you load Oblivion or at any point during the game, by pressing the **START button**. The Options Menu allows you to adjust your gameplay, audio, video, and control settings, and gives you access to the Download option.

GAMEPLAY

Using this menu, you can adjust the Difficulty slider and toggle certain features off or on, including: General Subtitles, Dialogue Subtitles, Crosshair, Save on Rest, Save on Wait, and Save on Travel.

VIDEO

Adjust the Brightness slider with this menu. If you have certain TVs (e.g. DLP or LCD projection) or play in a bright room we recommend increasing the brightness.

AUDIO

Use this menu to adjust volume levels: Master, Voice, (Sound) Effects, Footsteps, and Music.

CONTROLS

In this menu you can adjust Vertical and Horizontal Sensitivity, and Invert the Y Axis. You can also reassign the Action Mapping for the game's controls.

WARRANTY INFORMATION

ZeniMax Europe Limited guarantees to the original purchaser of this computer software product that the disk/cartridge supplied with this product shall not show any fault during the first 90 days from the date of receipt of ownership. In the first instance please return the faulty product to the point of purchase, along with any proof of purchase. If for any reason this is not possible then please return the product to ZeniMax Europe Limited at the address below along with any proof of purchase, location of purchase, a statement describing the fault and any original packaging you may have. ZeniMax Europe Limited will reimburse the postage costs of returning any faulty products. This warranty is in addition to and does not affect your existing statutory rights regarding the product and your statutory rights are in no way restricted or affected by this warranty. If you require further advice regarding your statutory rights then please contact a citizen's advice bureau, consumer affairs adviser or lawyer.

Where you see either symbol on any of our electrical products, batteries or packaging, it indicates that the relevant electrical product or battery should not be disposed of as general household waste in Europe. To ensure the correct waste treatment of the product and battery, please dispose of them in accordance with any applicable local laws or requirements for disposal of electrical equipment/batteries. In so doing, you will help to conserve natural resources and improve standards of environmental protection in treatment and disposal of electrical waste.

This symbol may be used on batteries in combination with additional chemical symbols. The chemical symbols for mercury (Hg) or lead (Pb) will appear if the battery contains more than 0.0005% mercury or more than 0.004% lead.
